This pattern was inspired by images of Honeycomb quilt designs.

The pattern in full will create a piece which is 20cm in length, I would advise you continue to test the length to fit your wrist, keeping in mind the slide connectors and findings will add at least 3cm to the overall length.

If you need the piece to be longer, after you have stitched row 231, go back to row 202 in order to continue the pattern

Stitches Used

Peyote - an off-loom beading technique, it can be worked with either an even or odd number of beads per row.

Adding the Clasp

A slide connector is not only a simple way to finish off a piece, it also protects the edges of the design.

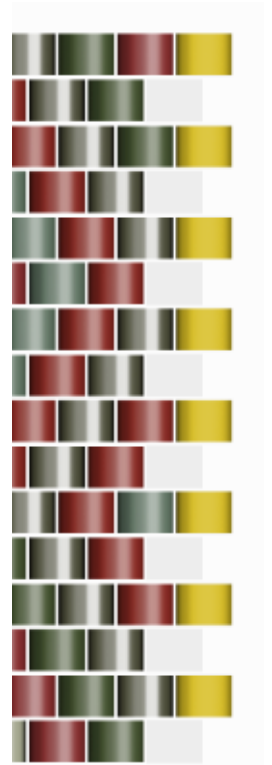

This bracelet was designed to work with a 20mm slide connector.

To attach the slide connector to the bracelet, you will need to add one additional row of beads to each end of the bracelet.

You will use the same square stitch technique used in the start of the squares to add a delica to the top of each bead on the end row. These additional delica beads are shown in yellow. Once you have added the beads, tie and trim the thread.

Use the tail thread to add the additional beads to the start of the bracelet.

Once you have the additional beads added to each end you are ready to add the slide connector.

To finish off the bracelet, you will need to open up the flap on the slide tube a little wider, slide the tube over the delicas added in the last row. Once you have reached the end of the bracelet, push the flap closed.

Use the jump ring on the partially finished bracelet to connect the end of the slide tube, repeat on the other side.
